Kyle Dushman

Full Stack iOS Developer and Architect

I am a full stack iOS developer and architect who graduated from Indiana University with a Biochemistry BS. I am a hard worker, and I like to feel passionate about what I put my mind to. I work great independently and with groups where I strive to take leadership roles in the interest of improving my peers and myself. No matter the task, I enjoy problem-solving, which is what drives me to meet and exceed my goals.
